- Getting an A in SCI 100
- Problems to be faced
1. Handing in assignments on time
2. Thoroughly understanding the programming language
3. Getting used to performing the required tasks
4. Thorough time management
- Solutions
1. Check for assignments daily on Canvas
2. Watch youtube videos to get a deeper understanding of the programming language used
3. Ask the Professor for help when you don't understand concepts
4. Ask friends for help when you don't understand concepts
5. Create a group(discussion group) to better tackle assignments
6. Revise or go through assignments and

class examples outside class.

7. Arrive at the lecture room at least 10mins before class

- Most promising solutions

- [ ] Check for assignments daily on Canvas
- [ ] Watch youtube videos to get a deeper understanding of the programming language used
- [ ] Ask the Professor for help when you don't understand concepts
- [ ] Ask friends for help when you don't understand concepts

- Assumptions

- [ ] Getting an A is hard
- [ ] Programming is difficult

- Alternative approaches

1. Do all assignments on time
2. Start preparing for the final grade from the beginning of the course.
